

PUBLICATIONS

*Life Safety Upgrades in Airport Traffic Control Towers*¹, published in the Journal of Infrastructure Systems - American Society of Civil Engineers

The FAA's National Airspace System (NAS) in a Changing World,² published in Cost Engineering, The International Journal of Cost Estimating, Cost/Schedule Control and Project Management.

Free Flight³: Keeping Up With Changing Times, published in Cost Engineering, The International Journal of Cost Estimating, Cost/Schedule Control and Project Management.

The Cost Management Framework – A Process For Applying The Skills and Knowledge of Cost Engineering (A Cost Engineering Handbook) – Author: Resource Planning and Procurement Planning Sections, published by AACE International Association for the Advancement of Cost Engineering

The Role and Operations of Multinational Organizations, published in the Transactions of AACE International.

Risk Reduction and Performance Measuring System, published in the Transactions of AACE International.

Schedule Hierarchy, published in Cost Engineering, The International Journal of Cost Estimating, Cost/Schedule Control and Project Management.

Fast-track Management of Projects with Multiple Sites, published in Cost Engineering, The International Journal of Cost Estimating, Cost/Schedule Control and Project Management.

Challenge for Change, published in Cost Engineering, The International Journal of Cost Estimating, Cost/Schedule Control and Project Management.

AACE International's Professional Practices Guide: Aviation & Aerospace - Editor, published by AACE International Association for the Advancement of Cost Engineering (CD).

AACE International's Professional Practices Guide: Planning & Scheduling - Editor, published by AACE International Association for the Advancement of Cost Engineering (CD).

Recommended Practices and Standards – A Process Overview, published in Cost Engineering, The International Journal of Cost Estimating, Cost/Schedule Control and Project Management.

Salient Features of ICRISAT Building Complex, published in the Journal of Institute of Engineers.

¹ This paper was written on Airport Traffic Control Towers - to enhance the public understanding of the FAA mission.

² This paper was written on The FAA's National Airspace System (NAS) - to enhance the public understanding of the FAA mission.

³ This paper was written on The FAA's Free Flight Program - to enhance the public understanding of the FAA mission.
